

1. The Tunnel
2. Logo

3. We are The Tunnel, This website hopes to create a community for all people living in the underground to come together and communicate, whether that includes distributing food or just getting together to explore the sewers. Enter our forums and our community of the people of the underground.
4. The Tunnel was established in 1984 during the Cold War when the first undergrounders were forced into the sewers. Since then the tunnel has been used as a way for people in the underground to communicate with each other and share information. The Tunnel was founded with the mission of providing a safe place for the people of the underground to congregate both online and in the real world.
5. I will be writing all of my research, The first piece of research will be about a large stockpile of rare earth metals going missing. The second will be about a series of mole people spottings in the nineties. The third will be about how scientists discovered a bunch of new tunnels underground.
